Secretary's Office :

Division of Parks and Recreation

December 12, 2011

**E-MEMORANDUM**

TO: Manly Wilder, Chief Deputy Secretary

THROUGH: Cathy Hardy, Director BPA

FROM: Lewis R. Ledford, Director 

SUBJECT: Request to Release Vacant Seasonal Positions January-June 2012

The Division of Parks and Recreation (DPR) operations and administrative staff have compiled the attached list of vacant seasonal position critical to the operation of state park facilities and services for the January-June 2012 time period. This request is for 497 positions out of 794 available seasonal positions for DPR. The OSBM request to release vacant position signature page and the OSMB excel agency report of personnel exceptions for classification titles are submitted for your consideration.

Receipted positions (1312) for this request total \$239,510, while appropriated positions (1311) total \$1,315,857.31. Recruitment and hiring for these positions has begun in preparation for our busy recreation season which spans Memorial Day through Labor Day.

These positions are essential for operating park facilities, guarding swimmers, collecting fees, keeping restrooms and other facilities sanitary, operating concession stands and serving park visitors during the busy spring and summer travel season.

Our state parks continue to offer relatively inexpensive recreation opportunities for our visitors. It's imperative that our division hire seasonal employees to operate and maintain our facilities and provide the level of customer service that our visitors expect.

## REQUEST TO RELEASE VACANT POSITION

Division: Parks and Recreation    Position #: 4 of 497 seasonal positions requested statewide

Funding Source: Receipted 1312                      Classification: [#1. Burn Crew Laborer](#)

Current Budgeted Salary \$44,000.00

Date Vacated: 2011

Justification for Exception: These positions are responsible for conducting prescribed fire at a number of parks throughout the Division. These positions will participate in prescribed fire and wildfire activities, which may include: burn unit preparation, fire operations, managing staff and volunteers, maintenance of equipment and supplies, mop up, and monitoring. These positions will also participate in restoration projects which may include heavy chainsaw work, seed collection, installation of erosion control structures, and other activities as management plans dictate. These positions will participate in noxious weed control activities, including the use of herbicides, manual removal, and chainsaw and brush-cutter work. These positions are essential to meet the requirements of a grant provided by the Natural Resources Conservation Service. The grant allows for reimbursement based on the annual acres burned in prescribed fires. Without sufficient staff the Division will be unable to recoup expenses associated with the burn program. Funding is through a federal grant. *4 BURN CREW LABORER positions @ 11.00 = \$44,000.00*

## REQUEST TO RELEASE VACANT POSITION

Division: Parks and Recreation      Position #:1 of 497 seasonal positions requested statewide

Funding Source: Receipted 1312      Classification: #2. **Burn Crew Leader**

Current Budgeted Salary \$12,480.00

Date Vacated: 2010

Justification for Exception: This position is responsible for conducting prescribed fire at a number of parks throughout the Division. This position will participate in prescribed fire and wildfire activities, which may include: burn unit preparation, fire operations, managing staff and volunteers, maintenance of equipment and supplies, mop up, and monitoring. This position will also participate in restoration projects which may include heavy chainsaw work, seed collection, installation of erosion control structures, and other activities as management plans dictate. This position will participate in noxious weed control activities, including the use of herbicides, manual removal, and chainsaw and brush-cutter work. The burn crew leader position is essential to meet the requirements of a grant provided by the Natural Resources Conservation Service. The grant allows for reimbursement based on the annual acres burned in prescribed fires. Without sufficient staff the Division will be unable to recoup expenses associated with the burn program. Funding is covered through a federal grant.

## REQUEST TO RELEASE VACANT POSITION

Division: Parks and Recreation      Position #: 7 of 497 seasonal positions requested statewide

Funding Source: appropriated 1311      Classification: #3. Chief Lifeguard

Current Budgeted Salary \$8,122.80

Date Vacated: 2011

Justification for Exception: Chief Lifeguard positions are critical for the protection of park visitors statewide. Chief Lifeguard responsibilities are management and primary contact for beach and swim area visitors. Lifeguards rescue swimmers, assist injured visitors, provide first aid and CPR, relay information on missing persons and assist LE Officers with opening and closing swim area operations. Visitors have historically relied on lifeguards being available for their safety. Without lifeguards, swim areas and beaches will be required to close, reducing a source of revenue and limiting services to more than 13 million annual park visitors.

7 CHIEF LIFEGUARD @ 9.67 = 8,122.80

## REQUEST TO RELEASE VACANT POSITION

Division: Parks and Recreation      Position #: 3 of 497 seasonal positions requested statewide

Funding Source: appropriated 1311      Classification: #5. [Deckhand](#)

Current Budgeted Salary \$4,350.00

Date Vacated: 2011

Justification for Exception: Position provides assistance to the Ferry Operators in conducting daily ferry operations from the mainland to Bear Island, which is the primary feature of the park. Memorial Day through Labor Day the park operates two 40 foot ferry vessels, seven days a week for ten hours per day. Each 40 foot ferry vessel is required by the United States Coast Guard to have a licensed ferry operator and deckhand aboard the vessel in order to operate and provide for passenger safety. The primary responsibilities of these two positions will be to collect and tally ferry tickets, track the number of passengers that each vessel transport to and from the island, answer visitor questions through daily contacts, provide safety information to all passengers, secure all dock lines when docking and departing for ferry runs, and assisting ferry operators as needed. At the present time the park currently has one vacant ranger position that will not start until August 20th. With staffing shortages it is vital that we be able to fill these positions in order to operate the ferry service and provide the level of consistent transportation that visitors expect. These positions were responsible last year in providing transportation services that collected \$87,474.00 in ferry fee revenue and \$11,113.00 in camping fee revenue. If we are not able to fill these positions we will not be able to operate our ferry service as advertised. 3 Deckhand @ 7.25 hr.

## REQUEST TO RELEASE VACANT POSITION

Division: Parks and Recreation      Position #: 1 of 497 seasonal positions requested statewide

Funding Source: appropriated 1312      Classification: [6. Environmental Biologist](#)

Current Budgeted Salary \$15,600.00

Date Vacated: 2011

Justification for Exception: This position updates the Divisions outdated facilities inventory database and assist park staff in the development of GIS maps for search and rescue and displays. This position will update facilities and trails data into a uniform system using existing documents, aerial photography, and field data collection. In addition, this position will review Master Plans and General Management Plans to extract planned facility locations and types. 1 Environmental Biologist@15.00 per hour

## REQUEST TO RELEASE VACANT POSITION

Division: Parks and Recreation      Position #: 11 of 497 seasonal positions requested statewide

Funding Source: receipted 1312      Classification: **7. ENVIRONMENTAL EDUCATION INSTRUCTOR**

Current Budgeted Salary \$62,092.80

Date Vacated: 2011

Justification for Exception: Environmental Education Instructor positions are responsible for Interpretive and Educational Programs to visitors and school groups statewide, providing environmental and public information assistance, leading hikes, programs, etc. These positions assist at the Environmental Center and facilities with varied responsibilities that include planning and presentation of interpretive programs for all visitors as part of the state parks mission. Not filling positions result in adequately maintained facilities and decreased efficiency in environmental education and stewardship. School groups have already scheduled and paid for programs in advance.

## REQUEST TO RELEASE VACANT POSITION

Division: Parks and Recreation      Position #: 105 of 497 seasonal positions requested statewide

Funding Source: receipted 1312 \$31,030.00

Classification: **8. General Utility Worker**

appropriated 1311 \$475,078.00

Current Budgeted Salary \$506,108.00

Date Vacated: 2011

Justification for Exception: General Utility Worker: These positions are required to assist park staff and the public in all aspects of park operations. Responsibilities include monitoring all park areas for public safety related issues. Other duties include monitoring drinking water supplies performing daily chlorine residual water testing and maintaining water treatment plants and lagoons by performing required mowing. In other areas of the state, staff assists newly established parks in natural resource management projects including boundary management and trail construction and rehabilitation. Not filling positions result in decreased sanitation and inadequately maintained facilities.

## REQUEST TO RELEASE VACANT POSITION

Division: Parks and Recreation      Position #: 1 of 497 seasonal positions requested statewide

Funding Source: appropriated 1312      Classification: [10.Land Protection Specialist](#)

Current Budgeted Salary \$15,600.00

Date Vacated: n/a

Justification for Exception: This position updates the Divisions outdated facilities inventory database and assist park staff in the development of GIS maps for search and rescue and displays. This position will update facilities and trails data into a uniform system using existing documents, aerial photography, and field data collection. In addition, this position will review Master Plans and General Management Plans to extract planned facility locations and types.

## REQUEST TO RELEASE VACANT POSITION

Division: Parks and Recreation

Position #: 48 of 497 seasonal positions requested statewide

Funding Source: appropriated 1311

Classification: **11.Lifeguard**

Current Budgeted Salary \$46,500.48

Date Vacated: 2011

Justification for Exception: Lifeguard positions are critical for the protection of park visitors statewide. Lifeguards are the primary contact for beach and swim area visitors. Lifeguards rescue swimmers, assist injured visitors, provide first aid and CPR, relay information on missing persons and assist LE Officers with opening and closing swim area operations. Visitors have historically relied on lifeguards being available for their safety. Without lifeguards, swim areas and beaches will be required to close, reducing a source of revenue and limiting services to more than 13 million annual park visitors.

## REQUEST TO RELEASE VACANT POSITION

Division: Parks and Recreation      Position #: 12 of 497 seasonal positions requested statewide

Funding Source: appropriated 1311      Classification: **11. Naturalist**

Current Budgeted Salary \$8,120.00

Date Vacated: 2011

Justification for Exception: This position is responsible for direct classroom instruction and Interpretive Educational Programs to visitors and school groups statewide, providing environmental and public information assistance, leading hikes, and environmental programs. These positions assist at the visitor centers with varied responsibilities that include planning and presentation of interpretive programs for all visitors as part of the state parks mission. Not filling positions result in adequately maintained facilities and decreased efficiency in environmental education and stewardship.

## REQUEST TO RELEASE VACANT POSITION

Division: Parks and Recreation

Position #: 32 of 497 seasonal positions requested statewide

Funding Source: appropriated 1311 \$111,679.00  
received 1312 \$2,436.00

Classification: **13.Office Assistant**

Current Budgeted Salary \$ 114,115.00

Date Vacated: 2011

Justification for Exception: Office Assistant positions are critical in the visitor centers and visitor contact areas on weekdays, weekends and holidays. Responsibilities include revenue producing duties for the sale of merchandise, accepting fees for shelters, and other park camp sites. These positions are essential to the operation of the central reservation system which will require staff to manage day to day operations, operate computers, cash registers and monitor changes in inventory. Because the reservation system is now operational parks can no longer close due to staff shortages because reservations have been made via internet and the public would have expectations to use these facilities. The revenue generated through these operations has a positive impact on the State's General Fund and provides a valuable service to park visitors. These positions also answer visitor questions relating to facilities, trail routes, regulations, directions, safety information and general park information. A majority of state park visitors arrive on weekends and utilize visitors centers. Not filling these positions will result in decreased revenue collection, reduced public contact and assistance, and potentially compromise the recreational experience of the system's more than 13 million annual visitors.

## REQUEST TO RELEASE VACANT POSITION

Division: Parks and Recreation      Position #: 1 of 497 seasonal positions requested statewide

Funding Source: appropriated 1311 \$7,680.00      Classification: [14.Organizational Mgmt Intern](#)

Current Budgeted Salary \$ 7,680.00

Date Vacated: 2011

Organizational Management Section Intern - This position will provide archiving, retrieval/recovery, identification and digitizing as part of a division initiative to preserve photos, materials, reports, files, etc. of current and historical significance in preparation for the agency's move to the new Nature Resource Center. Unlike other DENR agencies, the Division of Parks and Recreation does not have any file clerks. This position is essential for DPR to meet the requirements of the DENR Documentum effort to reduce filing space needs and as part of the division's partnership with Clemson University and the State of South Carolina as part of the Open Grid digitization initiative to develop a database of state parks and recreation electronic materials. 1 Organizational Mgmt Intern @12.00 per hour

## REQUEST TO RELEASE VACANT POSITION

Division: Parks and Recreation      Position #: 165 of 497 seasonal positions requested statewide

Funding Source: appropriated 1311

Classification: **16.Park Attendant/Fee Collector**

Current Budgeted Salary \$ 330,121.50

Date Vacated: 2011

Justification for Exception: Park Attendants/Fee Collectors are engaged in revenue producing duties under direct supervision and support to Law Enforcement other staff. These mission critical positions are responsible for essential tasks across the state at State Parks and Recreation Areas. Not filling positions results in inadequately maintained facilities and public safety, decreased sanitation and an overall unacceptable park experience due to the inability to pick up trash and thoroughly clean restrooms. Other impacts include the inability to collect day use revenue, inability to sell season passes, decreased efficiency in camper registration, reduction in visitor services due to the lack of a contact point, reduced emergency response time by LE officers. These positions are critical to the operation of the newly unveiled central reservation system which will require staff to manage day to day operations, operate computers and monitor changes in inventory. Because reservation system is now operational parks can no longer close due as needed because reservations have been made on line and in advance through the contracted provider Infospherix. Public would have expectations to use these facilities.

## REQUEST TO RELEASE VACANT POSITION

Division: Parks and Recreation

Position #: 50 of 497 seasonal positions requested statewide

Funding Source: appropriated (45) Subtotal 1311: \$177,017.00

(5) receipted Subtotal 1312: \$26,591.20

Classification: **14. Park Technician/Fee Collector**

Current Budgeted Salary \$ 203,608.20

Date Vacated: 2011

Justification for Exception: Park Technicians are responsible for fee collections, public assistance and monitoring park facilities for public safety concerns. These positions assist with the management of campgrounds with responsibilities that include the collections of camping fees, selling of firewood, providing assistance to the public and identifying problems within the park that need to be addressed by park law enforcement staff. This position also provides public environmental education activities within assigned park. Not filling positions result in adequately maintained facilities and decreased efficiency in camper registration procedures.

## REQUEST TO RELEASE VACANT POSITION

Division: Parks and Recreation      Position #: 44 of 497 seasonal positions requested statewide

Funding Source: appropriated 1311      Classification: **17.Refreshment Stand/Bathhouse Fee Collector**

Current Budgeted Salary \$59,044.00

Date Vacated: 2011

**Justification for Exception:** Refreshment Stand/Fee Collectors are engaged in revenue producing duties used for essential tasks across the state at State Parks and Recreation Areas under direct supervision and support to Law Enforcement staff. Not filling positions results in inadequately maintained facilities, decreased sanitation and an overall unacceptable park experience due to the inability to pick up trash and thoroughly clean restrooms. Other impacts include the inability to collect day use revenue, inability to sell season passes, decreased efficiency in camper registration, reduction in visitor services due to the lack of a contact point, reduced emergency response time performed by LE officers. These positions are critical to the operation of the newly unveiled central reservation system which will require staff to manage day to day operations, operate computers and monitor changes in inventory. Because reservation system is now operational parks can no longer close due as needed because reservations have been made on line and in advance through the contracted provider Infospherix. Public would have expectations to use these facilities.

## REQUEST TO RELEASE VACANT POSITION

Division: Parks and Recreation

Position #: 1 of 497 seasonal positions requested statewide

Funding Source: appropriated 1311

Classification: 20.DEDE Section Intern Exhibits

Current Budgeted Salary \$12,480.00

Date Vacated: 2011

Justification for Exception: This position will assist parks with developing information, interpretive and orientation signage. Create graphic designs for displays using national ADA standards for accessibility. Assist with research, image acquisition, and text development. Work with park staff to proof displays and get them produced. The position insures a professional standard for signage in public use areas. It prevents errors and flaws that can create health and life safety issues, or can bring costly fines or lawsuits on the agency. It insures that museum exhibits are maintained to public safety standards.

## REQUEST TO RELEASE VACANT POSITION

Division: Parks and Recreation      Position #: 1 of 497 seasonal positions requested statewide

Funding Source: appropriated 1311

Classification: **22. Section Intern Computing Support**

Current Budgeted Salary \$ 11,960.00

Date Vacated: 2011

Justification for Exception: The Information Processing Technician is a technical and administrative position that performs a variety of tasks for the Division of Parks and Recreation. Tasks include obtaining data and reporting on state park visitation, reservation system inventory, interpretation and education programming, vehicle mileage and fuel consumption, plant and animal inventories by park, and a number of other tasks that fall under the heading "administrative", e.g., budget reports, training calendar maintenance, seasonal employee tracking, correspondence tracking, and Special Activity Permitting. This position also assists parks in some specialized responsibilities – pier/bouy/ramp permitting at the State Lake parks, beach access permitting at Fort Fisher SRA, and citation tracking for division law enforcement personnel. Not filling this position would result in considerable disruption to daily DPR functions, a significantly increased workload for many other staff members, and an inability to fully realize revenue generation through permitting and reservations.
